

□ **B.SC. of Navigation and Maritime transportation** Constanta Maritime University is particularly aiming at providing training by means of delivering safety courses for the students of all maritime specializations as well as guiding students who carry out on board training.

Navigation and Maritime transportation: First year Navigation and maritime students are attending four safety courses necessary to get the Seaman's Book and Apprentice Deck Officer Certificate:

First Medical Aid;

- Basic Fire Fighting;
- Personal Survival Techniques;
- Personal Safety and Social Responsibilities on Board Ships;

Second year Navigation and maritime students program:

- Transport and Handling of Dangerous, Hazardous and Harmful Cargoes;
- Pollutin Prevention of the Marine Environment
